

NFS 740/770 Net Fill Sensor

Specifications:

- Size: 12"x45"x7"
- Weight: 12 lbs
- Frequency: 40 khz / 70 khz
- Charge Time: 6 hrs
- Requires NiCAD battery charger
- Smart charger available
- Charge life: Approx. 1 week
- Depth Rating: 750 Fa.

NiMH battery charger

Ocean Systems, the company that brought you the most dependable catch sensor for over a decade now introduces the next generation of net fill sensor.

The NFS-740/770 series of catch sensors (eggs) is the latest generation of acoustic fishing aid. The units can be programmed to operate with all major brands of trawl sonar equipment.

Some of the new features include programmable frequency selection, higher efficiency transducers, re-enforced case, extra battery life, and an optional side pull trigger switch. Maintenance is kept to a minimum using shock resistant surface mount technologies. If service is ever required to unit, repairs can be made to component level keeping cost to a minimum.
